**Best Execution - Analysis:**

For the period 3<sup>rd</sup> of January 2017 to 3<sup>rd</sup> of January 2018, we confirm that there were no material close links, common ownership or conflicts of interest between us and the execution venues / brokers used by the Firm. Execution venues / brokers are paid on a pre-agreed cost per transaction. In this period no changes were made to the execution venues/brokers used. We do not receive any discount, rebates or non-monetary benefits on these services. We may on occasion receive short term market colour from our execution providers. All our clients are categorised as professional clients under Article 4(1)(10) of Directive 2014/65.

We conduct regular reviews of our chosen execution venues / brokers against our Order Execution Policy, and may at our discretion, remove those which we believe are no longer offering us best execution.

During the period under review, 'price' and 'costs' were the chief execution factors used in determining whether the best possible result was obtained for each transaction. However, on occasion the firm may select another execution factor(s) with a view to achieving the best possible result.

Note as an AIFM, we are not required to report our best execution disclosure, therefore this analysis only relates to our MIFID business activities.
